Corps of Engineers to plan improvements to Cranes Mill Park at Canyon Lake

The Fort Worth District, U.S. Army Corps of Engineers, in continuing its long-term effort to plan and construct major improvements to the recreational facilities at Canyon Lake, announced today the initiation of a planning effort for facility improvements at Cranes Mill Park. Cranes Mill Park is located on the western portion of the lake. Since 1995, facility improvements have been planned and completed at several Canyon Lake parks.

At this time, the Corps' planning team is requesting public comments concerning the recreational uses and facilities at Cranes Mill Park. This is an opportunity for the public to comment on operational issues and provide park facility preferences or suggestions to the Corps.

Written comments should be sent to the following address by Friday, May 19, 2000: U.S. Army Corps of Engineers, Canyon Lake Office, 601 C.O.E. Rd., Canyon Lake, Texas 78133.

E-mail comments may be sent to: Judy.J.Scott@swf.usace.army.mil or Ronald.W.Pivonka@swf.usace.army.mil.

Final park improvement design plans are projected to be available for public review in mid-October at the Corps' Canyon Lake Office.
